Life insurance isn't always one size fits all

Not all life insurance needs are easily solved with a term policy. But permanent products aren't always the right answer either. When clients realize their full need can't be met with a single life insurance solution, they may feel intimidated and unsure where to turn.

Clients need creative solutioning

That's why clients turn to you. They trust you to think creatively and find a solution that can fit their unique situation — and sometimes, that means strategically blending two unlikely products to work together cohesively.

Here's a creative approach to meet your clients' life insurance needs through a blended solution strategy.

Meet Thomas Age: 40 Underwriting Class: Non-Tobacco

He needs life insurance protection that can ensure his wife can pay off the mortgage and debt — in case he's not around — while also covering his young children's future college expenses. He's willing to assume some market risk but doesn't want to risk his death benefit coverage.

After completing a life insurance needs analysis with his financial professional, they estimated he will need \$500,000 in coverage.

His financial professional presents considerations for two life insurance solutions:

Type of insurance option	Product	Death benefit	Years of coverage	Monthly premium	Pros and cons
Short-term coverage	Protective® Classic Choice term	\$500,000	20 Years	\$56.91	Pros: <ul style="list-style-type: none">• Budget-friendly term policy• Meets his immediate needs Cons: <ul style="list-style-type: none">• Won't deliver coverage later in life
Lifetime coverage	Protective® Strategic Objectives II VUL	\$500,000	60 years (Endow at age 100)	\$295.48	Pros: <ul style="list-style-type: none">• More comprehensively fits his coverage needs• Potential for uncapped cash value accumulation Cons: <ul style="list-style-type: none">• Can't afford the monthly premium

The blended solution strategy

After examining the family's budget along with their short- and long-term needs, his financial professional suggests a strategy that blends Protective® Classic Choice term and Protective® Strategic Objectives II VUL.

How it works:

In the illustration above, \$500,000 in total death benefit coverage is available for 20 years to address Thomas' short-term needs. After year 20, he will cancel his term policy, leaving him with Protective Strategic Objectives II VUL to cover his remaining lifetime needs.

Tailored client coverage

When you think creatively and offer a blended solution to your clients, you can help give them a deeper sense of financial security.

In turn, you may also expand your client reach by receiving more referrals from your satisfied book of business.

Contact your Protective representative for help creating a blended solution that fits your clients' protection needs.
